

Type designation, selection, application

The GEKO-Type designation

Extensive technical informations are included in the type designation of the GEKO power gensets. To let you always keep track of everything, all abbreviations are listed here:

Applications

We pictogrammed the favourite applications of all types of gensets in order to ease your choice for the suitable one. But each GEKO genset can be used universally for various applications of course.

7402 ED - AA/HEBA

Automatic shut down if low oil level is detected	A	7402 ED - AA/HEBA	B Gasoline engine
Electrostart	E		D Diesel engine
Handstart	H		H Honda
Starting amplifier	A		M Mitsubishi
